The Republic of Korea is a small country on the far eastern edge of Asia. Although it ranks 106th in the world in terms of land area, the country is a center of economic activity, culture, and arts. Today, Korea is an industrial nation standing tall on the world stage. Korea's semiconductor, automobile, shipbuilding, steel and IT industries are leaders in the world's global markets. Korea has also been host to the 1988 World Olympics in Seoul and the 2002 Korea-Japan FIFA World Cup. - Korea's oldest business organization with a proud history of 115 years
- Enriching the world as an ISB(Infrastructure Support Business) Leader

## ● Innovation and Integration

Chung-Ang University has reorganized its previous academic management system to improve its overall educational competitiveness.

*77 departments and 18 colleges => 50 departments and 13 colleges*

CAU's integration of the main school and branch school, merging with the Red Cross College of Nursing, and an initiative for multi-campus are all evidence of CAU's efforts to raise its competitiveness and provide a higher quality of education by merging overlapping departments and nurturing real student talents to be ready and wanted in the global market.

### *Launch of Korea's Largest College of Nursing*

CAU consolidated all of its medical related majors, medicine, pharmacy and nursing, into one location through the addition of 1,000 beds to CAU hospital and the construction of Building 102.

### *Integration of the Main School and Branch School*

As the first university in Korea to integrate the main school and branch school. CAU is now able to operate student quota and education space of each campus more efficiently.

## ● First to Establish in Korea

*School of Economics, School of Pharmacy, School of Business Administration, Department of Advertising and Public Relations, School of Performing Arts and Media, School of Mass Communication*

With a long history and deep tradition, Chung-Ang University is proud of its various departments. Chung-Ang University is constantly striving towards becoming the best in Korea and one of the best in the world.

In particular, its culture and arts-related programs have been widely recognized as the best in the nation and have enabled the university to gain the status as the center of the recent "Korean Culture Wave" outside of Asia.

## ● Chung-Ang Proves its Worth with its Exceptional Alumni.

Currently, Chung-Ang University is in pursuit of a vision to create a university of high, world-class status by 2018 through its CAU2018+ plan. This goal for reform is special as 2018 will celebrate the centennial anniversary of CAU.

## ● The Preferred University by Korean Students

Chung-Ang University continues to gain status as a first-choice university by Korean students.

Admission standards have increased along with higher enrollment rates from **14:1** (applicants 28,850 / admissions 2,055) in 2008 to **24.9:1**(applicants 80,558 / admissions 3,976) in 2015.

It is evident from these figures that since the university's incorporation by Doosan—increasing its educational budget—and the university's intensive reforms for better education, Korean students have renewed their trust and expectations in the quality of education provided by Chung-Ang University.
